CAPITAL STOCK \$1,000,000.
SHARES \$5.00 EACH.

Full Paid and Non-Assessable.

FORTY THOUSAND SHARES

with a bonus of FIVE ACRES of land to each share are
offered to immediate subscribers at par of five dollars
per share, for the benefit of the Treasury.

This Company have acquired an exclusive grant of several million acres of land
from the Government of Mexico in the state of Tamaulipas, bordered by the state of
Texas and the Gulf of Mexico. It comprises rich agricultural, grazing and mineral
lands, immense forests of valuable timber, and opportunities for vast public enterprises
in the development and settlement of a territory almost as large as the state of Penn-
sylvania, with a good population, a healthy, moderate climate, and ample rain fall.
The land offered with the stock and for which negotiable certificates will be issued, will
prove a choice investment of itself while each share participates in the whole enter-
prise. Based on the lowest price of Government land in the United States the shares
will have a value many times greater than the price at which these forty thousand are
offered to carry out the objects of the Company. Subscription will be accepted as fol-
lows: 25 per cent. cash, balance in equal payments at Thirty, Sixty and Ninety days.
Remit by Draft, Check, Express or Registered Letter, direct or through any banker or
broker. Prospectus and full information on application.

HAVE YOU A COLD IN THE HEAD which does not get better? Have you an ex-
cessive secretion of mucus matter in the nasal passages? Are you troubled by
coughing, spitting, weak and inflamed eyes, frequent soreness of the throat, ringing or
roaring in the ears, more or less impairment of the hearing, loss of smell, memory im-
paired, dullness or dizziness of the head, dryness or heat of the nose? Have you lost all
sense of smell? Is your breath foul? If so, you have the Catarrh. Some have all these
symptoms, others only a part.

California Cat-R-Cure

Restores the sense of taste and smell, removes bad taste and unpleasant breath, result-
ing from Catarrh. Easy and pleasant to use. Follow directions and a cure is guaran-
teed by D. W. MATTHEWS & Co.

RECOMMENDED.

CAPTAIN CHARLES L. DIMON, of New York City, formerly special agent of the
Phoenix and Home Insurance Company at San Francisco, Cal., says: "I have been
troubled with Chronic Catarrh for twenty years. A friend in Woodland, Cal., recom-
mended your California CAT-R-CURE. I procured a jar, having but little faith in its
curative properties; but I must say, after using three jars, I am cured of that disgusting
disease. Enclosed find \$5 for which send me California CAT-R-CURE for some friends,
who are sufferers."

Now in possession of a new discovery in
medicine, which is purely a local anesthetic,
and acts almost instantaneously on the
surrounding tissue of the teeth. It is in
no way injurious or unpleasant to the
taste. The manufacturers of it claim that
it is equal has never been known before, and
by applying it to the sensitive or sore
teeth, they can be cleaned and filled
without pain. So all those that want all
kinds of dental work done without pain,
would better call on Dr. H. Smith. Teeth

ON SHORT NOTICE.

Capt. A. H. Bogardus.

Champion wing shot of the world.

The name of Capt. Bogardus is a household word. He is the greatest living marksman; in May, 1875, he carried away the champion medal of the world. Since then he has held undisputed possession of the coveted trophy. He is the only man that ever killed 100 birds in as many shots, and who broke 1,000 glass balls in 1,000 shots in one hour and six minutes. His record is without precedent, and the most expert handlers of the shotgun have tried in vain to equal the least of his achievements. His oldest son is master of the rifle and the acknowl- edged superior of the best shots in the sporting world; and the young- est, a boy of twelve years, while rapidly maneuvering on roller- skates, breaks glass balls (with his rifle) held in his father's hands, and supplements this performance by ringing a target bell at twenty paces, sixteen times in twenty sec- onds. The most marvelous display of shotgun and rifle practice ever seen at one time anywhere. His other sons are equally proficient. This noted family of crack shots can be seen in connection with the other attractive features of Sells Brothers' Great Hippodrome and Menagerie, in this city, Tuesday, Aug. 28th.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were under- mined and death seemed imminent. For three months she coughed in- cessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at H. W. Cox's Drug Store.

The Verdict Unanimous.

W. D. Solt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Dr. H. W. Cox's Drug Store.

Skepticism.

By reason of the state of chronic incredulity in which many men pass their lives they miss half the good of this world. They seem to think that doubt and unbelief are proofs of wisdom, and through fear of being deceived reject much that is true and good. To such minds the statement that Dr. Pierce's Golden Medical Discovery is a real and proven cure for all diseases caused by a torpid liver, bad blood or scrofulous humors carries with it its own condemnation. They do not believe it, apparently, because we say so; and yet what more, or less, than this can we do? We know the facts, and if we did not make public the great value of this remedy few would profit by it. We try to do our duty in the matter and it remains for the doubter who needs help to overcome his prejudice and give it a trial. \$500 Reward for an incurable case of chronic nasal catarrh offered by the manufacturers of Dr. Sage's Catarrh Remedy.

A Choice Investment.

The Mexican Land and Development Company, of No. 57 Broad- way, New York, have acquired a grant of public land in the state of Tamaulipas, Mexico, covering several million acres. It covers the most fertile section of land on the Continent, with a soil so rich and a climate so perfect that three crops of some cereals are produced in one year. Its forests are also impassable with the growth of rare and valu- able woods. The standing timber alone more than warrants the capi- talization of the company controlling the grant, yet in value it represents but a fraction of the worth of the millions of acres inexhaustible in fertility and productiveness. A limited amount of the Company's stock is offered for sale at \$5 per share. With each share is given a certificate which entitles the holder to five acres of land free. See ad- vertisement elsewhere.

TELEGRAPHIC SUMMARY.

An Insane Murderer.

SAN JOSE, Aug. 15.—Thomas Lehan, aged 60 years, rose about 4 o'clock this morning, and killed his wife by jumping upon her while asleep and crushing her to a jelly. Lehan then attempted to kill his 14-year-old son, but the boy escaped and notified the authorities. Lehan was arrested, but refused to speak. It is thought that his mind is de- ranged from ill luck in business.

Wrecked by a Gas Explosion.

ELMIRA, N. Y. Aug. 15.—Escap- ing gas filled the picture gallery in the west wing of the residence of F. C. Denney, a millionaire coal miner, and when Mrs. Denney, before en- tering the gallery, stepped into a niche and touched an electric ap- pliance for lighting the gas, a terrific explosion followed, blowing the roof off the gallery and scattering the grounds about the house with glass, iron and timbers. Furniture was blown through the hallway like leaves. Plate glass windows and walls were broken in nearly every part of the house.

Running the Gauntlet.

GRASS VALLEY, Aug. 15.—Dr. Jones and R. H. Single had a fearful experience last evening. While driving home from a place known as "You Bet" they ran the gauntlet of a hot fire for two miles. On both sides of the road huge pines blazed, and one place on their way was blocked by fallen trees that they had to assist to burn, so as to get a roadway. The absence of wind is all that allowed them to get through. All the timber east of Greenhorn creek is on fire. At Johnston an extensive shingle mill is reported destroyed.

What Senator Jones Says.

WASHINGTON, Aug. 15.—Senator Jones of Nevada does not believe that congress will adjourn until well upon the heels of the Novem- ber election. The best campaign work the majority of the senators can do, in his judgment, is to stay in Washington and grind out tariff matter for the enlightenment of the masses. His idea is that speech after speech delivered upon the great question in controversy between the parties, and reported daily by the newspapers of the country will do more to edu- cate the people respecting the policy of protection vs. free trade, than all the stump orations that senators could indulge in if congress were adjourned.

From Birth to the Grave

We carry with us certain physical traits, as we do certain mental characteristics. In youth that psychologists have striven to designate by generic titles certain temper- aments—as the bilious, the nervous, the lymphatic. The individual with a bilious complexion is set down as bilious, often rightly so. If the sufferer in the line of his skin is traceable to bile in the blood, the presence in the wrong place instead of the liver, will also be evinced by fur on the tongue, pain beneath the right ribs and through the right shoulder blade, sick headache, constipation, flatulence and indigestion. For the relief of this very com- mon, but not essentially perilous com- plaint, there is no more genial and thorough remedy than Hostetter's Stomach Bitters, which is also a beneficent tonic and strength promoter, and a widely esteemed remedy for and preventative of fever, and ague, rheumatism, kidney and bladder troubles.

THE FRUIT BUSINESS.

To take advantage of all of the favorable conditions, and make the most of all the opportunities re- quires a careful study of those con- ditions and opportunities. The till- ers of the soil of the Willamette val- ley are just at present looking after the unexampled facilities to culti- vate fruit in this locality, as a more profitable occupation than raising cereals alone. As a pointer as to what is being done in that direction, the Railway Review calls attention to the growing importance of the fruit traffic upon lines in all parts of the country. The distances to which fruit can now be transported by means of refrigerator cars, and the faster time by express freight trains have placed the perishable products of many different sections of the country in markets covering a wide extent. The California fruit business, for instance has reached such an extent that at the daily auc- tion sales held at Chicago from ten to fifteen cars are disposed of. Pur- chasers at these sales reship gener- ally by express to all parts of the country.

The Delaware peach crop is re- ported as being this year largely in excess of any former crop. This means that many carloads will be shipped West as far as the Missouri River. These samples, taken from the fast-growing fruit and vegetable traffic, between different sections of the country, show how widely vary- ing the various classes of traffic are that are handled by the roads, and also, how ready means of communica- tion and prompt shipment of pro- ducts give a national extent to classes of industry which were formerly considered only local. In order, however, to reap the advan- tages that this great activity in the fruit business indicates, it is neces- sary that the conditions be met. The kind of fruit to cultivate must be selected with reference to its market- able qualities, and quantities com- manding a shipping consideration must be produced. Without doubt, if the conditions are intelligently met, a paying market will be found for all of the fruit that can be pro- duced in this valley. Such fruit will be in demand, and all that is needed is to put it in the right market, in an attractive form.—Albany Herald.
